

# SILCENCE IS GOLD - GERD RUBE

(Written by Gerd Rube)

G

What happened the other night,

Em

It seemed like everything's quite right

C9

I must have said something wrong, did I hurt you again,

Dsus

why can't you tell me what's on your mind

You know you and I - been down that road before  
And I don't wanna go down this dark road anymore  
It's a heartache and pain, it's wasting of time  
Time that is precious we gotta draw that line

---

G	C9	Dsus
Silence is gold, but it sure doesn't give consent		
G	C9	Dsus
Silence is gold, maybe that's what people say		
Em	Am7 D11	G
Silence is gold - at the right time!		

---

I know it's killing you inside, like it's killing me too  
We both need the same, this peaceful me-and-you  
Come on and meet me in the middle, it can't be that hard  
We gotta ease the pain just let me play my part ->CHORUS
